

Приложение WeChat можно скачать через Play Market на Вашем Android устройстве.
Последовательность действий указана ниже на скринах:

1. Скачать приложение

2. Создать новый аккаунт

3. Выбрать регистрацию по номеру телефона

4. Заполнить все поля

The screenshot shows a registration form with the following fields and options:

- Name:** John Appleseed
- Region:** United States (+1)
- Phone:** Enter mobile number
- Password:** Enter Password
- ☐ Agree to Terms of Service
- Sign Up** button

5. Согласиться на условия лицензии

6. Подтвердить старт верификации

The left screenshot shows the **Privacy Policy** screen with the following content:

- Privacy Policy**
- Here is a summary of the information contained in this privacy policy. This summary is to help you navigate the privacy policy and it is not a substitute for reading everything! You can use the hyperlinks below to jump directly to particular sections.
- What information do you need to provide WeChat?**
- If you register an account to use WeChat then we will need some information from you to set this up (e.g., to set up a profile and validate your phone number). To set up your account, we will need a nickname, your mobile number, and a password. You can further refine and populate your profile with additional information. If you use the services available within WeChat (such as posting photos to your Moments and Time Capsule or following Official Accounts), we will process information to allow the services to operate. [More...](#)
- How do we use your information?**
- ☒ I have read and agree to the above terms
- Next** button

The right screenshot shows the **Security Verification** screen with the following content:

- Security Verification**
- For the security of your account, verify security verification code before registration.
- Start** button

7. Подвинуть пазл при помощи синего ползунка

8.

а) Попросить друга, имеющего активный аккаунт в WeChat, подтвердить регистрацию при помощи сгенерированного приложением QR-кода

б) Подтвердить создание аккаунта при помощи кода из смс.
